

Koncept **KIDMO!** (Philosophy)

TRANSFORMATION

KIDMO initiates personal, social and cultural transformation by connecting kids with a biblical worldview. In order for transformation to be realized, kids must be needed, valued and engaged in mentoring relationships. What's more, their church experience must be relevant to their daily lives. Kids have energy, availability and enthusiasm to accomplish great things. By teaching kids to develop a biblical worldview, we can impact their everyday choices and actions. We can ignite an awakening that will impact generations to come.

IT'S ALL ABOUT RELATIONSHIPS

KIDMO is an interactive, media-driven curriculum for grades 1-6 containing everything you need for a complete program experience. We understand how consuming and overwhelming traditional program planning for children's ministry can be. Utilizing KIDMO can literally cut your preparation efforts in half. Congratulations, you just found that extra 20 hours you've been dreaming of. KIDMO comes with simple instructions and is so easy to use, you'll spend less time preparing, and more time cultivating relationships. This relational investment will make the difference between information and transformation.

KIDS LOVE IT

KIDMO uses state-of-the-art technology to tell the timeless message of truth in God's Word. Not every ministry has gifted communicators available to teach. And not just teach, but communicate in a style that kids love.

CONSISTENT TEACHING EVERY HOUR, IN EVERY ROOM

Often, the challenge in the multiple classroom setting is tracking what is being communicated at any given moment in every room. Inevitably, classrooms are filled with well-intentioned volunteers that struggle to breathe life into even the most trusted curriculum resources. Utilizing innovative technology, KIDMO ensures that you have great, consistent teaching throughout your ministry. Multiple services, satellite campuses and multiple classrooms need not limit your ability to provide trustworthy teaching at every turn.

IT'S EASY

KIDMO is, hands down, the easiest, most cost-effective way to bring the power of technology, along with stunning visuals and high impact music, to the front door of your children's ministry. Imagine the ease of having all of your print materials prepared weeks in advance via CD-ROM. Imagine the simplicity of touching one button to begin a journey of top-notch creative programming including worship and eye-catching visuals. Kids are so entrenched in today's technological culture, they instantly identify with video communication. In fact, you will be amazed at the ability of video to capture and invigorate the imagination of a child. KIDMO's media-driven materials provide the edge you need to engage even the toughest kid in the crowd through group-friendly competition. Competition that is fun generates energy and excitement in children's ministry that complements a learning-focused environment.

MENTOR

For the same reason that Jesus gave His attention to kids, we believe kids grow best when nurtured by loving mentors and teachers. KIDMO was created not to replace teachers, but to knock down the roadblocks that keep teachers from building transformational relationships with those they seek to influence. After all, years from now, the memory that will stand the test of time may not be the program, but the life-altering investment of a mentor.

B12

We believe kids are world changers and their spiritual foundation is set before the age of 12. By fostering a biblical worldview within them, we are initiating global transformation for years to come.
